TAN LINES

We've cracked the code to the perfect summer tan and it goes like this: apply James Read's Sleep Mask Tan neck to toe before bed. Its hyaluronic acid- and aloe vera-infused formula tans and hydrates skin.

Next, Elemis' Total Glow Bronzing Moisturiser for Face, which leaves skin plumped, smooth and golden.

For extra contouring on the cheekbones, mix a dapple of By Terry's Tea to Tan Water Color Bronzer with Giorgio Armani's Maestro Liquid Summer. Dust shins and arms with Laura Mercier's Body Bronzer.

AMERICAN BEAUTIES

"I love Los Angeles and I love Hollywood. They're beautiful. Everybody's plastic but I love plastic. I want to be plastic." While Andy Warhol's observation of Tinseltown's celebrity-led (read: notoriously warped) perception of beauty still holds an element of truth, for those chasing the holy grail of ageless skin, going under the knife needn't be the first call or the last resort. Competing with the scalpel are results-driven products concocted by the aestheticians Hollywood A-listers have long had on speed-dial.

1. Colbert MD The creator of the Triad - a red-carpet facial for camera-friendly skin - Colbert sets up camp in Beverly Hills during Oscar season.

2. Julia T Hunter Think maximum-strength peels and supplements; this Beverly Hills dermatologist is all about treating skin inside and out.

3. Oxygenetix Cosmeceutical expert Barry Knapp developed a formula to heal and conceal skin after cosmetic surgery, lasers and peels. It is the world's most breathable foundation.

4. Nurse Jamie Owner of the Beauty Park Medical Spas in LA, Jamie Sherrill is known for her "liquid facelift", a no-downtime natural lift with injectables. *FF*
